

Bachelor of Science in Art Education

Artists create art to communicate ideas, thoughts, or feelings. They use a variety of methods—painting, sculpting, or illustration—and an assortment of materials, including oils, watercolors, acrylics, pastels, pencils, pen and ink, plaster, clay, and computers. Artists' works may be realistic, stylized, or abstract and may depict objects, people, nature, or events. Kutztown University's renowned art education program is one of the best and largest in the country. As an art education major, you will receive a good general education, rich experience in your field, and you will gain the confidence and know how to become the best possible art teacher.
