

Bachelor of Science: Game Development

Minor: Computer Science, Information Technology, Game Development and Web Development

Certificate: Cybersecurity Certificate

The Bachelor of Science degree in Game Development is an interdisciplinary degree. It focuses on computer science courses for game development, but also includes art, music and writing courses providing students a cross-disciplinary knowledge base in game development. Students who receive a degree in Game Development may choose to work in a variety of areas after graduation, such as game developer, video game programmer, game designer, mobile app developer, and web developer. Employers recommend one or more internships to be successful and competitive when entering this field.
