

The following courses have been approved by the General Education Committee, the University Curriculum, and University President as fulfilling the designated Competencies Across the Curriculum requirements. Please note that although these courses have been approved for Competencies, they still may not be offered as such. The final decision to offer a course as fulfilling a Competency is made by the provost in consultation with the department chair and the appropriate dean. If and when that decision is made, such courses will be indicated in the Master Schedule with two letter designations. This list has been updated as of June 2015.

NOTE: Those courses marked with an asterisk (*) have not yet been offered with the attached Competency (as of Spring 2015). If courses marked here with an asterisk have been offered since the competency (ies) were first attached, please contact the General Education Committee chair.
