

Set up Notepad++ to Access CSIT (acad)

1. Start Notepad++

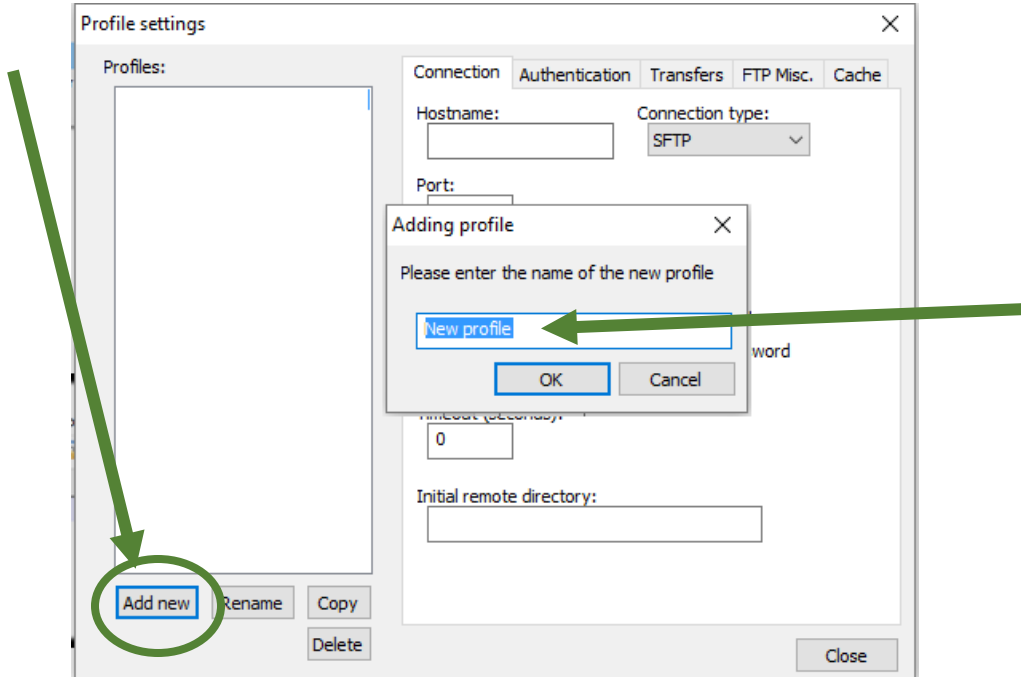

2. Select: *Plugins / NppFTP / Show NppFTP Window*

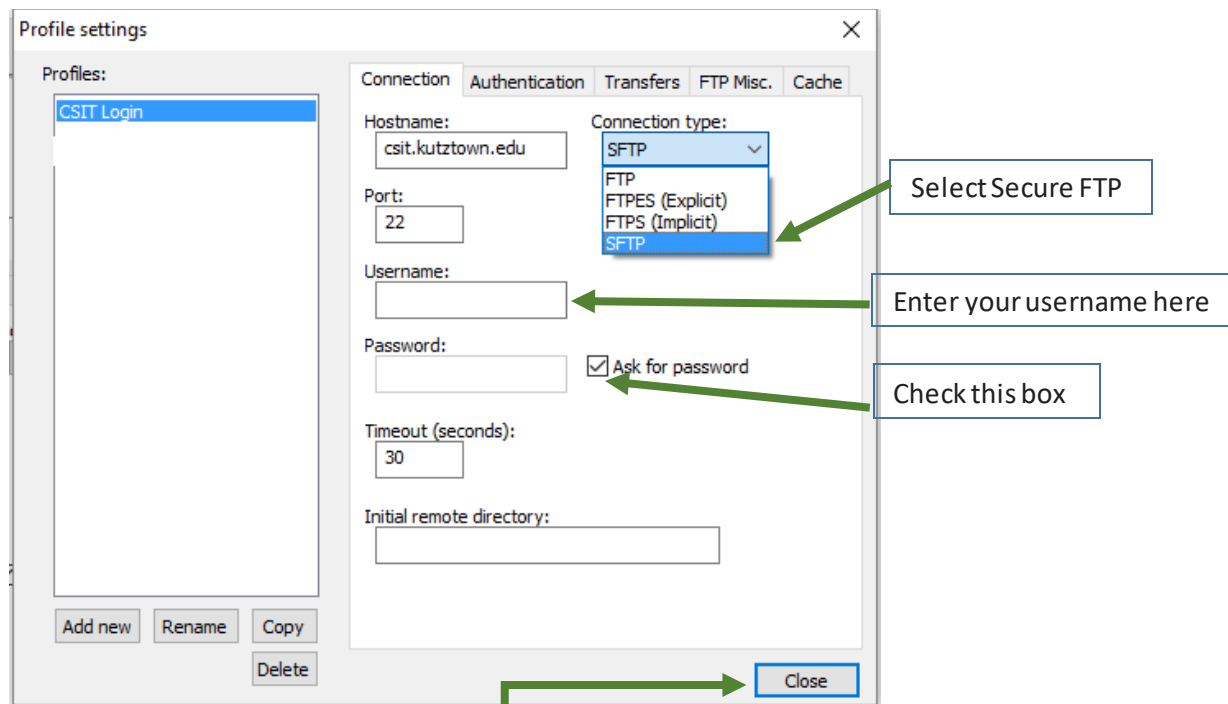

3. Select *Settings / Profile Settings*

4. Select *Add New* in the lower left. Then, name the profile (suggestion: CSIT Login)

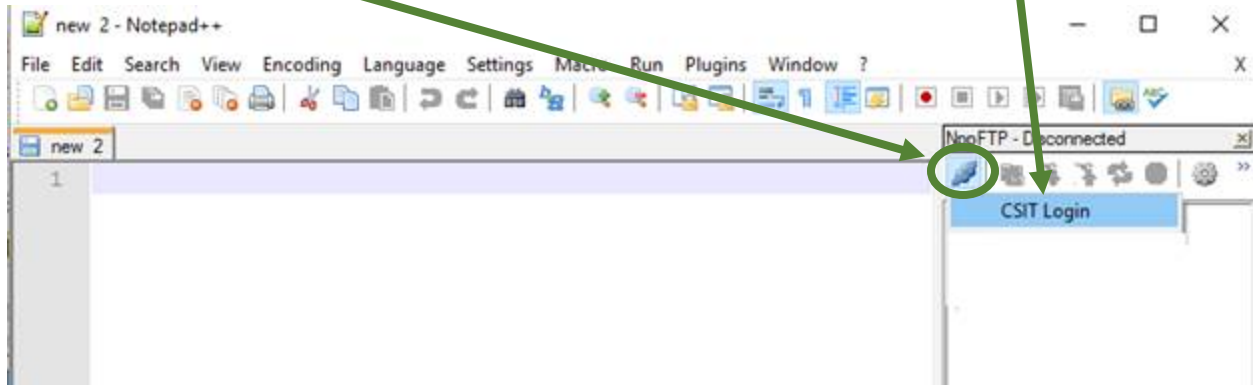

5. Fill out the *Profile Settings* window as shown

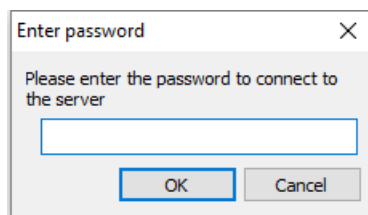

6. Click on **Close**

Log the FTP Client into CSIT

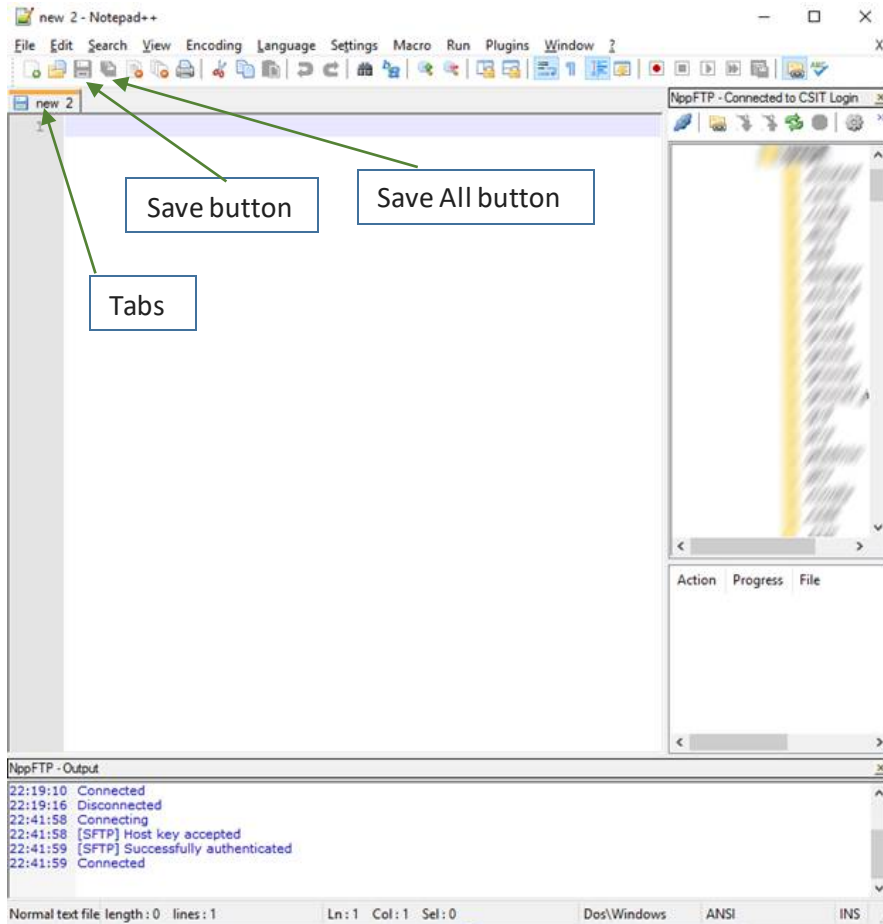

1. Click on (Dis)Connect icon and select your profile.

2. Enter your KU password. Click on *OK*

3. Your root directory will appear in the NppFTP window (unblurred) in Explorer format.

Select the file(s) you wish to edit and they will appear in the main window. You may navigate multiple files via tabs.

NOTE: As you work, the file is **NOT** saved on acad.

You must explicitly save the file for it to be uploaded to acad.

4. To disconnect, select the (dis)connect button. Be sure to save before doing so. You will not be warned.
