

334100 STORM DRAINAGE

1. Provide an adequate number of exterior storm drains that resist clogging.
2. Provide slot drains at the end of long sidewalk runs with grade toward building.
3. Road grates shall be bicycle safe; Campbell Foundry Company #2617, or approved equal. If on a pedestrian pathway, road grates must be ADA compliant.
4. The top of lawn grates shall be set 1/2" below finished grade level to facilitate drainage. Lawn grates shall be round.
5. All storm drainage plans and designs must be submitted to Maxatawny Township for approval. It is recommended that this occur prior to the preliminary design submission.
