

Psy 363 Clinical Internship in Psychology

Proposal (3 credit hours)

This is a supervised internship at an agency or organization offering clinical/ counseling services. Students work with clients and gain experience in diagnosis, interviewing, counseling running support groups, and other clinical services under supervision.

PREREQUISITES:

- Minimum grade of C in Psy 11 General Psychology
- Minimum grade of C in Psy 200 Statistics for Behavioral Sciences
- Completion of 12 credits in Psychology
- QPA 2.5 or higher

Internships are arranged a few weeks before advising and registration. The student is expected to volunteer at the site for a total of 136 hours (9 hours/ week) for 14 weeks during the Fall or Spring semester to earn 3 credits. A student may earn up to 6 credits. In addition, the student will complete required assignments with the psychology faculty supervisor listed below. The site supervisor is to provide feedback on the student's attendance and performance with the Faculty Supervisor.
