

## Starfish Taskforce 2023 Appointments

Members of the taskforce will serve as a sounding board, testing group, and idea generating body in collaboration with our Starfish Manager and one representative of the college-specific success team to improve our implementation. **Membership will begin in Spring 2023 and extend through Spring 2024.** Members should anticipate several meetings each semester to provide support to the implementation process, with potentially fewer meetings in the later phases of the rollout.
